Origin of Outline

Be storage and Outline frames in Bisley Coral.

Original Be Toppers

Outline is a minimal and unobtrusive storage and display system, designed following the success of frame toppers in our Be range. Outline allows you to create flexible work zones, enabling you to transform the way your workspace looks, works, and feels.

With more employees returning to the office, we have seen a general shift in the typical office layout. Office spaces are becoming more flexible, collaborative, and agile.

Be seating with Outline frames in Anthracite.

It was important that Outline suited alongside our existing office systems – Be and LateralFile. The break lines between the units needed to be consistent and when considering the different depths, widths, and apertures, any complexities were minimised during the design process.

The simple addition of frames to our Be and LateralFile units transforms their functionality and style. Plus, an extensive range of accessories, colours and finishes means that Outline can extend the product's life further than ever.

"Building on what Bisley does best, Outline seamlessly integrates with our storage to provide a template that can adapt to an ever-changing workplace."

William Skillen
Design

With more and more colleagues returning to the office, we have seen a shift in the traditional office layout. Office spaces are becoming more flexible, collaborative, and agile.

Outline divides spaces into meeting areas, focussed work zones, areas to take five - all with ample, secure storage for both office and personal items. And, with the ability to fill Outline as you choose, its flexibility introduces texture, colour, and biophilia - crucial when replicating the comforts of working from home.

Outline Storage frames

Alongside Be and LateralFile storage units, an all-wooden storage option has been designed to suite perfectly with Outline steel frames. Introducing a softer, minimal design, Outline Storage features an MFC carcase, with matching doors and back panels standing proud of the carcase, minimising joins for a seamless finish. Additionally, the cupboards feature round wooden handles and soft close hinges.

As standard, the Outline range (both stacking and floor standing options) arrive complete with two base shelves, apart from the corner frames which come with one base, with the option of either a wood or steel finish.

Additional wood or steel shelving can be ordered separately and placed within the frame, and the discreet shelf pins mean each new shelf can be easily moved around to create your desired configuration.
